

Password Genie (Includes Mobile)

TechShield includes Password Genie password manager for computers and mobile devices. Easily create, manage and access strong, unique passwords for all your account logins. Password Genie serves as your digital wallet and includes several convenience and security features that are listed below.

Computer

Smart Logins	Password Genie is easy to use. It saves your usernames & passwords and allows you to auto-fill forms and auto-submit login credentials with just a click.
Password Generator	Password Genie can generate strong, unique passwords and then apply them to your logins.
Password Strength Rater	Quickly see which existing passwords are weak, and identify the strength rating of new passwords as they are being created.
Form Fill	Save your commonly used web form information and automatically enter it into online forms. Even create multiple buyer personas like personal and professional.
Multiple Users/PCs	Password Genie can be installed on up to five computers with unlimited users. Saved data is automatically synchronized.
Advanced Customization	Customize your experience with folders, categories, multiple personas for forms, keyboard shortcuts and much more.
Safe and Secure	Your data is kept safe with 256-bit encryption, just like what the banks use. Turn on multi-factor authentication for an added layer of security.
Automated Backups	All your saved usernames and passwords are securely backed up and available for easy installation on your new devices.

Mobile

Smart Logins	Password Genie is easy to use. It saves your usernames & passwords and allows you to auto-fill forms and auto-submit login credentials with just a click.
Password Generator	Password Genie can generate strong, unique passwords and then apply them to your logins.
Password Strength Rater	Quickly see which existing passwords are weak, and identify the strength rating of new passwords as they are being created.
Form Fill	Save your commonly used web form information and automatically enter it into online forms. Even create multiple buyer personas like personal and professional.
Desktop Syncing	Sync with the MacOS or PC versions of Password Genie to access your information from work, home or on the go.
Advanced Customization	Customize your experience with folders, categories, multiple personas for forms, keyboard shortcuts and much more.
Optimize with Images	Attach images of your ID, passport, insurance cards, and more to your entries so you always have a copy.
Safe and Secure	Your data is kept safe with 256-bit encryption, just like what the banks use. Turn on multi-factor authentication for an added layer of security.
Biometric Access	Conveniently and securely access Password Genie with your device's biometric recognition functionality.
